MY TERMS

Prices named herein are subject to the following discounts: Five per cent. allowed, to be deducted when cash accompanies order. To customers of approved credit, accounts are payable 60 days from date of invoice, except where special prices and terms are arranged for. Grass, Grain, Clover Seed, Implements, Fertilizers and Insecticides, are subject to no discount whatever, but are strictly net cash.

ORDERS are filled promptly upon receipt or a reason given with acknowledgment of same. Note below when the different kinds are ready.

PRICES. As it is impossible to predict the exact demand, my prices are made subject to change without notice, and goods being unsold when order reaches me. I, however, carry very large stocks, and if orders reach me in good season, full satisfaction may always be expected.

C. O. D. orders can be sent only by express. Such orders should be accompanied by a remittance in part payment, to guarantee charges.

20 Per Cent. Reduction in Express Rates

Under the ruling of the leading express companies, Plants, Bulbs and Seeds, packed in closed boxes or baskets, will now be carried at the "GENERAL SPECIALS" rate. This rate means a reduction of 20 per cent. from the regular merchandise rates to all points where no "General Specials" exists. To points where a "General Specials" rate is in force, the companies make a special reduction. Shipments weighing less than 100 lbs. receive the benefit of the rate per 100 lbs., but the minimum charge is 35c. For instance, where the regular merchandise rate is \$4.00 per 100 lbs., a box of plants or bulbs weighing 100 lbs. will be carried for \$3.20, a saving of 80c. on one shipment.

NON-WARRANTY. I give no warranty, express or implied, as to description, quality, productiveness or any other matter of any seeds, bulbs or plants I send out, nor do I guarantee the successful flowering of seeds, bulbs or plants, or that the same will be free from disease. If not accepted on these terms the goods must be returned at once, and any money that has been paid for same will be refunded.

ARTHUR T. BODDINGTON.

LILIES

True Bermuda Easter Lily

LILIUM HARRISII

Undoubtedly the best winter-blooming Lily in existence, and can be so easily handled that it may be had in bloom by a succession of planting from Thanksgiving Day until Easter. My Quality Brand contains a very much smaller proportion of diseased bulbs than those usually sent to the New York market, and they are the True Harrisii type unmixed with Hybrids and *Lilium longiflorum*. Bulbs ready for delivery in August.

PAPER WHITE NARCISSUS

Paper White Narcissus Grandiflora with the florist is a staple article and an important item. To secure good results, only the best should be secured. My "Quality Brand" is true and free from the old type "totus albus" and other mixtures. I handle only one size, 13 ctms. and up, running about 1300 to the case. Price, \$1.25 per 100; \$9.00 per 1000.

Paper White Narcissus, when placed in shallow bowl—the same as **Chinese Sacred Narcissus**—will bloom freely and are an attractive novelty.

PAPER WHITE GRANDIFLORA MULTIFLORA

This variety is a great improvement over the grandiflora; a vigorous grower, with fine spike, which carries larger trusses, and in greater abundance than the old varieties. 14 ctms. and over, 1000 to the case. \$1.50 per 100; \$12.00 per 1000.

Lily of Valley, "Wedding Bells"

JAPAN IRIS (*Iris Kaempferi*)

(October Delivery)

Nothing can surpass the beauty of these magnificent flowers, which are of enormous size, averaging six to eight inches across. The colors are varied and give the bloom an orchid-like appearance. It is perfectly hardy and thrives best in moist soil, or when plentifully supplied with water. I offer these in 12 named varieties, single and double. \$1.75 per doz.; \$12.00 per 100.

SPANISH IRIS (*Iris Hispanica*)

The true value of this Iris appears to have been overlooked in this country. The great diversity of color and its being equally adapted for gentle forcing and massing in beds make it one of the most useful bulbs to plant.

TO THE CATALOGUE MAN

A REAL NOVELTY

The New Gigantic Orchid Flowering Cosmos

LADY LENOX

THIS GIGANTIC COSMOS is the forerunner of an entirely new race of Cosmos. It is of extraordinary size and beauty. Visitors to the floral exhibitions last autumn were enraptured with its size and magnificent color.

SIZE OF FLOWER—Six to Seven Inches in Diameter. COLOR. A delightful shell-pink, lighting up beautifully at night. FORM OF FLOWER. Oval petals of splendid substance, forming a perfectly circular flower which, when cut, lasts an unusual length of time in water. HABIT OF PLANT. Strong and vigorous, growing 6 to 7 feet high. Flowers may be cut with any length of stem up to 5 feet.

Under date of October 16, 1906, Messrs. C. C. Morse & Co., Seed Growers, of San Francisco, California, write us as follows: "Your new Cosmos, Lady Lenox, is now in full bloom. We are pleased to say it is one of the handsomest varieties of Cosmos that we have ever seen. The flowers are very large and full and the color is a very beautiful light pink. We would be glad to know what price you would be willing to make us for a quarter of a pound."

We are the sole owners of this variety, which will be disseminated January, 1908, for the first time, and will offer it in our seed catalogues at both wholesale and retail at 25c. per package, 5 packets for \$1.00, and respectfully request that intending purchasers adhere to these prices.

At seasonable times, we shall carry full-page advertisements in the leading trade papers—stating that this variety can be obtained of all seedsmen.

We will also have colored inserts printed in five colors, by J. Horace McFarland Co., which we will supply at cost to catalogue men and seedsmen—prices and samples upon application.

MY SPECIALTY "QUALITY" FLOWER SEEDS FOR FLORISTS

FOR LATE SUMMER AND AUTUMN SOWING

PANSIES

My Pansy Seed during the past season gave unprecedented satisfaction and every order booked last year was duplicated and increased this year. All the testimonials received mentioned specially the high grade of flowers—color, form and size of the individual blossoms. One customer said I could write the testimonial myself, and to use his own words, "could make it as strong as I liked." This year, by adding improved types, intending customers can absolutely rely on a duplication of this season's success with increased satisfaction. My "mark" for this strain is "Challenge," and it is all the word denotes.

PANSY—BODDINGTON'S "CHALLENGE"

A mixture of the choicest strains of five leading pansy specialists of America and Europe. All large flowers of good substance in an infinite variety of color and markings. New crop seed ready July.

\$5.00 per oz.; \$2.00 per ¼ oz.; 75c. per pkt.

Cyclamen Persicum Giganteum Bush Hill Pioneer. A beautiful new feathered cyclamen in various colors. (See cut.) Per trade pkt., \$1.00.

CYCLAMEN

BODDINGTON'S GIGANTIC CYCLAMEN are unequalled for size or quality of bloom. A magnificent strain of Cyclamen with flowers of extraordinary size and substance. The leaves are proportionately large, and beautifully marked with silver-gray.

Salmon Queen Pink. Undoubtedly the most distinct and beautiful color found in Cyclamen. Habit good and foliage handsomely marked.

Princess May. A very pretty type of Cyclamen. Color pink, with suffused blotches of crimson at base of petals.

Giant White. The largest of all white Cyclamen.

" **Cherry-Red.** Most brilliant and effective.

" **Rose.** Immense flowers of a pleasing shade of light rose.

" **Pink.** Exquisite shade of soft pink.

" **Crimson and White.** A magnificent flower of the largest type.

" **Crimson.** Most striking color; under artificial light appears to be almost luminous.

" **Mixed.** A mixture of all the above varieties in proper proportion.

SWEET PEAS FOR CHRISTMAS FLOWERING

Sweet Peas (Christmas Early Pink). This is the earliest and most profitable and useful Sweet Pea in cultivation, as by sowing the seed under glass in latter part of August flowers can be cut from December on during the winter months. 60c. per lb.; 15c. per oz.

Sweet Peas (Christmas Early White). A companion to Christmas Early Pink. Just as free and profuse a bloomer, and is, without doubt, the finest early white for indoor planting. 75c. per lb.; 20c. per oz.

PLANT DEPARTMENT

HARDY HYBRID PERPETUAL, CRIMSON RAMBLERS AND OTHER ROSES

The right time to buy Roses, whether you need them in the spring or fall—is in the fall, when they are fresh and well ripened, and have not been laying in cold storage. Roses potted up in the fall or late winter become better established and force better, and are far more satisfactory in every way, and you can retard or force at your leisure.

I am handling this year American and Holland-grown stock, in Hybrids, Crimson Rambler and other Roses. More especially do I recommend the American-grown "Ramblers." Don't attempt to force imported Ramblers; the general experience is that they are a failure.

HARDY H. P. ROSES

I offer exceptionally strong two-year-old dormant, low-budded stock (on Manetti), in the following varieties:

Alfred Colomb. Carmine.
Anna de Diesbach. Bright carmine.
Ball of Snow. Pure white.
Baron de Bonstetten. Dark crimson, shaded.
Baroness Rothschild. Satiny pink; extra.
Captain Christy. Delicate flesh color.
Duke of Edinburgh. Bright vermilion; very fine.
Fisher Holmes. Dark rich scarlet.
General Jacqueminot. Rich velvety crimson.
General Washington. Beautiful red, shaded carmine.
John Hopper. Brilliant rose-pink.
La France. The finest light pink.
Margaret Dickson. White, pale flesh center.
Magna Charta. Clear rosy pink.
Mme. Gabriel Luizet. Light, satiny pink.
Mme. Plantier. White.
Mrs. John Laing. Soft pink; most desirable variety.
Paul Neyron. Beautiful dark pink.
Prince Camille de Rohan. Velvety crimson.
Ulrich Brunner. Cherry red.

HYBRID TEA ROSES

Maman Cochet, pink. Maman Cochet, white. Two truly magnificent Roses, unequaled as a bedders for summer blooming. They are very vigorous growers, producing buds of large size and of ideal form. The buds are of the color and form of Bridesmaid and Bride, but larger, and outside will yield more blooms than the latter will do under glass. The two finest outdoor Roses yet introduced. Strong 2-year-old plants, 10 for \$1.50; \$12.00 per 100.

American Beauty, Clothilde Soupert, Kaiserin Augusta Victoria, Caroline Testout, Hermosa. Strong, 2-year-old, \$15.00 per 100.

Most attractive in the shrubbery; also extensively forced on account of the brilliancy of colors. \$7.50 per doz.; \$55.00 per 100.

THE KILLARNEY ROSE.

The unprecedented demand for this rose last Spring has induced me to purchase a fine stock of two-year-old field-grown plants from the originators in Ireland. This rose is equally useful for summer flowering or winter blooming under glass. Color beautiful "Testout" pink. Buds very long—blooms cut will last a week to ten days. Good strong two-year-old plants, \$3.00 per 10; \$25.00 per 100.

THE BABY RAMBLER

Mme. Norbert Levavasseur. This rose, next to the Rambler, is one of the most important acquisitions of recent years in the line of Hardy Roses. For a continuous bloomer in pots or as a bedder it is scarcely equaled by anything in the plant line. Strong field-grown plants, \$3.00 per 10; \$25.00 per 100.

Baby Rambler

DEUTZIA

Gracillis, pot-grown for forcing, \$2.00 per doz.; \$15.00 per 100

PURE CULTURE MUSHROOM SPAWN

Pure Culture Mushroom Spawn. The "new idea" is no longer in the experimental stage. The largest growers of mushrooms (and growers of large mushrooms, too), use the Pure Culture Spawn in the West and Northwest.

Pure Culture Mushroom Spawn is propagated by a scientific process direct from varieties selected for size and prolific bearing. By this new process, the chances of the spawn becoming "dead," and the crop a failure, are largely eliminated.

In **Pure Culture Mushroom Spawn** the idea of improvement has been carried out, as in the improvement of all the vegetable kingdom, with regard to cropping and fitness for market purposes; and the difference is as noticeable, in comparison with any "wild" variety to a set and cultivated type now generally recognized, whether it be a fruit, flower or vegetable.

Price of Pure Culture Mushroom Spawn. Per lb., 15c.; \$1.25 per 10 lbs.; \$10.00 per 100 lbs.

LIVE FLORISTS

INCREASE YOUR SALES BY PUTTING IN A LINE OF BULBS FOR YOUR COUNTER TRADE AND RETAIL CUSTOMERS

How many customers did you turn away last year because you did not carry any bulbs to retail in a dormant state, such as Hyacinths, Tulips, Daffodils, Narcissus, Snowdrops, Crocus, etc., etc.?

Popular varieties of bulbs arranged attractively in low pans or boxes, with prices and name attached, will **make sales** and interest your customers. If necessary, put a small "ad" in your local paper. Don't let the "dry goods" house crowd you out of your legitimate business—it is yours—so go after it in a workmanlike and businesslike manner. No, there are not "millions in it," but it will **pay** and **pay you well**. Let people see you are "up-to-date."

Below I have made a careful selection of a Special List of **Bulbs** suitable for the small customer and small garden—the customer who has not the income to "own a greenhouse," yet one who likes to have a few spring flowers in his "front lot" or "back yard," or, maybe, in his window.

On all orders of \$25.00 or over, I will send you **free** 500 nicely gotten up lists containing the following varieties, with **retail** prices attached, with your name and address printed thereon. This will help you and help me too, though my name does **not** appear in the list; it will increase the popularity and sale of Bulbs and Flowers and will **make** business, for us both. Don't shrug your shoulders and throw this down. Think it over and send a **trial** order. I am positive others will follow.
